REFERENCES PAGES 2 ENCLOSURES (NO. & TYPE) REMARKS Doellersheim area.

1. At the Allentsteig (O 49/R 53) railroad station on 17 July 1950, the rail-car, previously seen in Goepfritz (O 49/R 64), was observed connected as a command car to the telephone network. Only a few trucks shuttled between the railroad station and the adjoining storage house. A column of six SU-100 assault guns and four motorcycles was observed in town. Most of the troops in Allentsteig wore red-bordered black epaulets, but kommandantura personnel wore black-bordered red epaulets.

* [redacted] Comment. Most of the motor vehicle [redacted] belong to the 15th Gds Mech Div and the 95th Gds Mtz Rifle Div. Units of these divisions may still be carried in the Doellersheim maneuver area up to mid-July 1950.
** [redacted] Comment. All the motor vehicle [redacted] identified in Kornburg in mid-July 1950 belong to the AAA unit (probably 23th AAA Div or Regt) of the Central Group of Forces. [redacted] elements of this AAA unit stationed in the Albrecht Kaserne returned to these barracks in mid-June 1950 from the Apetlon AAA range. [redacted] However, this is contradicted by reports saying that the unit of the division had not left the cantonment on Bisanberg. [redacted] It was still observed in the previous quarters in mid-July 1950.
